Interactive: Readings in ... - A  
function model or functional  
model in systems engineering and  
software engineering is a  
structured representation of the  
functions (activities, actions,  
processes, operations) within the  
modeled system or subject area.

Nitrogen is a chemical element  
with symbol N and atomic  
number 7. It was first discovered  
and isolated by Scottish physician  
Daniel Rutherford in 1772.  
Although Carl Wilhelm Scheele  
and Henry Cavendish had  
independently done so at about  
the same time, Rutherford is  
generally accorded the credit  
because his work was published  
first. Fri, 20 Apr 2018 12:27:00
