foundation of heat transfer pdf -
The heat transfer coefficient or
film coefficient, or film
effectiveness, in thermodynamics
and in mechanics is the
proportionality constant between
the heat flux and the
thermodynamic driving force for
the flow of heat (i.e., the
temperature difference, \hat{T}):

Heat transfer coefficient - Wikipedia -
Convective heat transfer, often
referred to simply as convection,
is the transfer of heat from one
place to another by the movement
of fluids. Convection is usually
the dominant form of heat
transfer in liquids and gases.
